UPDATE

While agents were treating the subjects, Pima County Sheriff's Department (PCSD) Deputy (b) (6), (b) (7)(C) and the Pima County Medical Examiner arrived on scene.

Deputy (b) (6), (b) (7) stated that they had responded to a 911 call received at 0957 hours from a civilian who stated that they had located a deceased subject at (b) (7)(E). This area is approximately 2.4 miles north of where agents encountered (b) (6), (b) (7)(C). Deputy (b) (6), (b) (7) stated that they had located and recovered the remains of an unknown male subject and were on their way to the county morgue for processing. Deputy (b) (6), (b) (7) stated they had not yet identified the deceased subject or his country of citizenship. The agents on scene, the JIOC and the TOC SBPA were unaware of a possible deceased subject in the area.

Deputy (b) (6), (b) (7) interviewed (b) (6), (b) (7)(C) to see if they knew anything about the deceased subject. Based on the responses given by both subjects Deputy (b) (6), (b) (7) and agents believe that the unknown subject was a part of their group. Deputy (b) (6), (b) (7) and agents also do not believe there are any more subjects outstanding based on their responses.

Deputy (b) (6), (b) (7) does not suspect foul play and stated that further questioning or detention of (b) (6), (b) (7)(C) was not necessary by PCSD. Deputy (b) (6), (b) (7) went on to further state that we could process both subjects per our guidelines.

PCSD assigned the deceased subject case# (b) (7)(E).

Subject: TUS IIR: Alien 911 Call/ (b) (7)(E)

On June 28, 2015 at approximately 12:15 P.M., the Tucson Station Tactical Operation Center (TOC) received an electronic notification from the Joint Intelligence and Operations Center (JIOC) in reference to a 911 call received from the Pima County dispatch emergency call center. According to the JIOC, the 911 caller stated that there were two subjects who required assistance.

The JIOC operator provided the TOC operator with PHASE 2 Global Positioning System coordinates (GPS): (b) (7)(E). The GPS coordinates are located approximately (b) (7)(E)

Border Patrol Agents (BPA's), air asset (b) (6), (b) (7)(C), (b) (7)(E), and BORSTAR units responded to the PHASE 2 GPS coordinates.

At approximately 12:30 P.M., Tucson Station BPA's (b) (6), (b) (7)(C) located the aliens. They were determined to be illegal aliens from Mexico.

A BORSTAR agent evaluated the subjects. Both individuals needed additional medical assistance due to dehydration. Medics on scene provided IV therapy to both individuals. Agents requested medical transport. At approximately 1:00 PM, Three Points Fire Department arrived on scene and will transport the subjects to University Medical Center, South Campus.

The illegal aliens will be under guard by agents.

Treatment Authorization Requests (TAR) were generated and submitted to the appropriate parties.

[REDACTED],
Good morning, I was wondering if you could send me a copy of the photo for (b) (7)(E) (per fingerprint "hit" on a person by the name of [REDACTED] (b) (6), (b) (7)(C) [REDACTED]) this person is still unidentified. Do you have any idea if the photo has been given to the Mexican Consulate? Anything will be appreciated. Thank you for your assistance.

Any time, we're here to help you guys out. Do me a favor and send the guys that take the prints some praise from us. Without them taking some great prints, this wouldn't be possible. Also, can you ask them to PLEASE use the print strips on digits that don't come out great. It will help us improve the results in the long run.

Thank you,

The results came back negative on (b) (7)(E)

If the your guys are willing to re-fingerprint those bodies, I'm willing to have another run at it. (b) (7)(E) look like they can get some more detail on their prints. If they decide that they want to re-print these cases, do me a favor and ask them if they can make strips of the index fingers.

Strips of any finger that doesn't have detail would also help. Do me a favor and thank them for a great job with the prints thus far.

I haven't had a chance to review the ones that I ran. If they came back positive, there will be photos. With everything that's going on, it will most likely be next week before I can get you that.

I've been in training for the last two weeks. I ran your subject today and it looks like we may have him in our system. Can you send me a copy of the Mexican Voter Registration Card? As soon as I get a chance, I will check for more. I had about 6 Fingerprint Cards come back positive.

Here's what we have:

Hello gentlemen,

I received a case from the Pima County Sheriff's Department about a possible UDA in Ajo. I have attached my report. I was wondering if you may possibly be able to locate any information on this person in your system. A Mexican voter ID card was located with him. The name on the card was [REDACTED] (b) (6), (b) (7)(C) and the date of birth was (b) (6), (b) (7)(C). I have sent a copy of the report to [REDACTED] (b) (6), (b) (7)(C), as well. The decedent will probably be transported to OME this coming Wednesday, and be viewable to you and the consulates the following Tuesday. If you have any questions, please feel free to contact me. Thank you for your time. I hope you have a wonderful week.

Very respectfully,
